

RxFormularySM

ENTERPRISE-WIDE FORMULARY MANAGEMENT APP

Because we have many different formularies across various lines of business, we need a centralized way of reviewing and changing formularies based on different pharmacy benefit coverage decisions and plan designs.

APPLICATION FEATURES INCLUDE:

- Configurable formulary application for consolidating all Commercial, Medicare Part D, and Medicaid formularies
- Formulary export functions for reporting to Federal, State, and HIX / HIOS entities
- Schedule formulary changes and integrate directly with pharmacy claims processors
- Formulary application access and approval safeguards
